

REASONS *Eight*

AFFORDABLE PRIMARY CARE

For less than the cost of one visit to a doctor, individuals and families can now have monthly unrestricted access to over 1,300 private health care centers for most of the illnesses and injuries of daily life, with no deductibles, no co-pays, and no exclusion for pre-existing conditions.

Over 95% of the time, individuals and families need to see a doctor or seek primary medical care for routine illnesses and injuries. If left untreated, sometimes it can escalate into very serious conditions. Unfortunately this care has become expensive and sometimes, inaccessible.

Now with Affordable Primary Care, individuals and families can have easy access to over 1,300 private health care centers to receive the type of quality care they expect from a family doctor, local clinic or urgent care center - except that their entire family's monthly care is less than the cost of one doctor's visit.

1 Over 1,300 Private Health Care Clinics

Affordable Primary Care members select from any of 1,300 private health care centers across the country. Unlike a local

doctor's plan where selection is limited to one or a few offices, or a plan from a mass merchant that may result in medical treatment provided at a discount store.

2 One Affordable Monthly Payment

The monthly fee is \$84 for an individual and \$99 for a family. This covers all primary care visits for the member, spouse and all their children from 6 months up to the age of 26.

Company sponsored plans are also available that offer additional cost savings.

3 No Co-Payments No Deductibles

Most locations offer all-inclusive medical care for injuries and illness, as well as preventative health care and wellness services.

There are no co-payments for office visits. Members do not have to pay a deductible. Coverage begins as soon as a member joins.

4 No Exclusion for Prior Conditions

There are no exclusions for pre-existing conditions. Everyone over the age of six months is eligible to apply.

5 Just Walk In . . . No Appointment

No appointment is necessary. Members are treated without an appointment, on a walk-in basis. If they need exams and tests that require extra paperwork, they can schedule an appointment.

6 The Care Families Really Need

Although it is not possible to list every conceivable injury or illness treated at our nationwide partner health care centers, here are some of the common ones:

- Diagnosis and treatment of illnesses and injuries
- Work related injuries
- Lab and imaging services
- Annual physical exams
- Vaccinations

With this card, Members and their families receive quality primary, urgent, preventative medical care at any of over 1,500 private health care centers located across the USA.

- Work, School and DOT physical exams
- Cold and flu
- Strep throat
- Allergies
- Sprains and strains
- Back Pain
- Urinary Tract Infections
- Minor Burns
- Sinus infections
- Ear infections
- Eye infections
- Bronchitis
- Flu shots
- Travel health
- Wellness programs

7 Extra Bonuses and Discounts

In addition to primary care, members who require follow up with specialists, such as a cardiologist, or hospitalization, receive:

- Significant discounts with a nationwide PPO network with 400,000 physicians, 2,700 hospitals and 47,000 ancillary health service providers.
- Diagnostic Imaging and Lab discounts from 10% to 80% on MRI and CT Scans, advanced radiologic procedures.
